CHP Drive to Dispel Fire Danger Begins

The California Highway Patrol is joining in the battle to prevent forest fires by mounting a drive against motorists who toss lighted cigars, cigars or matches out of their automobiles.

CHP Commissioner Bradford M. Crittenden said his officers are instructed to cite anyone they observe throwing any lighted substance on any road or highway outside of a business or residential district.

"This is an extremely critical year for forest fires," Crittenden added. "A match or a smoke tossed from a car can touch off a blaze that could burn hundreds of acres of timber, destroy thousands of dollars worth of private property, and cause loss of human life."

"Our enforcement activity will not, however, be confined to mountain and forest areas. The law applies throughout California and if we can educate the public not to throw lighted material from their cars anywhere they will be less likely to break the law in an area where great damage can be done."

Northrup Forms New Commercial Division

As a step in its continuing program of diversification, Northrup Corporation today announced the establishment of a Commercial Products Marketing Section in the Company's Nonair Division at Hawthorne, Calif.

In addition, the division's Subcontract Marketing Section has been redesignated the Ground Environment and Subcontract Marketing Section.

LOTS OF WATER

Lawns and flower beds should be soaked thoroughly with a soaker or good sprinkler. In California where the summer rain is unknown, gardens often dry up because of lack of water at depths in the soil.
